Denver, CO | 720-812-3808 | sagalxmohamed@gmail.com | linkedin.com/in/sagalmhassan

EDUCATION

University of Denver | Daniels College of Business — Denver, CO
B.S. in Business Information & Analytics — Expected June 2027

SKILLS

Programming: Python, SQL, R, HTML, JavaScript
Systems & Tools: Power BI, Tableau, Snowflake, SQL Server, SSIS, Salesforce, Excel (Power Query, VBA, PivotTables)
Certifications: Microsoft Office Specialist: Excel, Word, PowerPoint

PROFESSIONAL EXPERIENCE

Viega LLC | Sales Excellence Data Analyst Intern — Jun 2026 – Aug 2026

- Built an interactive Power BI dashboard for customer service leadership and a 46-person team, replacing manual Excel reporting with one view of order and case volume, employee productivity, and EDI/Esker order-entry channels.
- Worked with technical colleagues to combine SAP order, Salesforce case, and Paycor employee data in Snowflake; designed monthly trend, year-to-date, and prior-period comparisons with drill-through detail.
- Automated weekly U.S./Canadian territory updates in a 50K-row Excel VBA workbook, merging separate macros into one workflow that matches ZIP/postal codes to territories and flags unmatched codes; trained the CRM specialist on it.
- Built Salesforce reports for sales and marketing requests, validated CRM records with Salesforce Inspector, traced reporting discrepancies, fixed dashboard bugs, and documented processes for handoff.

The Home Depot | Order Fulfillment Associate — Jun 2023 – Present

- Fulfill and audit online orders before delivery, checking items, quantities, product condition, labeling, and staging, and prioritize incoming and next-day orders to meet daily deadlines.
- Investigate inventory discrepancies by verifying physical stock and coordinating with supervisors and neighboring stores to resolve order issues and keep customers informed.

ACADEMIC PROJECTS

Southwest Airlines Data Mart & BI | SQL Server, SSIS, Python (pandas, SciPy), Power BI

- Designed a 7-table SQL Server data mart using a star schema and built an SSIS package to load 25,000+ reservation, flight, customer, and payment records.
- Analyzed 5 KPIs in Python, including booked value, cancellation rate, and delay rate, and ran statistical tests on booking patterns, presenting findings in a Power BI dashboard and a 5-page stakeholder report.

Python & VBA Analytics Automation | Python (pandas), Excel VBA

- Built a reusable, menu-driven Python tool for technical users that validates CSV data, runs statistical tests including ANOVA and regression, and exports results to Excel.
- Rebuilt the same analyses as a button-driven Excel VBA tool so nontechnical users can run them without writing code.

Breast Tumor Classification & Predictive Modeling | R, tidymodels

- Trained and tuned logistic regression, bagged tree, and random forest models with 5-fold cross-validation to classify tumor samples as benign or malignant.
- Compared models on accuracy, sensitivity, and specificity, reaching 96.7% test accuracy, and analyzed variable importance and classification thresholds.

LEADERSHIP & COMMUNITY SERVICE

DU Business Analytics Association | Founding Member & Secretary — Feb 2026 – Present

- Helped launch the organization and grow membership to about 60 students through campus outreach and events.
- Coordinate board meetings, record decisions and action items, and manage member communications; help plan industry networking and skill-building events.

Tax Help Colorado | Volunteer Tax Preparer

- Prepared and filed tax returns for community members while safeguarding confidential client information; presented logged service hours & earned 2nd Place in Community Service at the 2022 SkillsUSA Colorado State Championship.
